3. Repeat for your 2nd body paragraph.
4. Make a notation – are you missing any parts from the above highlights? (If so, you need to add them.)
5. Underline transition phrases you included.
 - a. There should be one in body paragraph 1 between the first batch of analysis and your 2nd piece of evidence.
 - b. There should be one at the beginning of body paragraph 2.
 - c. There should be another one between your 1st batch of analysis in body paragraph 2 and your 2nd piece of evidence.

(If you don't have them, you need to insert some. If you don't know what to say, search "transitional phrases" online and find ones that best fit.)
